MESSAGE

At last years AGM, when our committee took over the chair, we immediately proclaimed ourselves as the “LAID BACK COMMITTEE”. We would relax this year. The last few committees have been organizing one big bang after another.

But, the enthusiasm of the committee and the dynamism of Seletar Hashmen soon made the term “Laid Back” obsolete and as usual, the ‘Seletar Spirit’ was there again and raring for more good runs and more merry making.

On behalf of Seletar Hash, welcome to our 400th and enjoy yourselves!

WELCOME!

On behalf of the Seletar Hash House Harriers 400th Run Committee I would like to welcome you, yes you, to our 400th run celebrations.

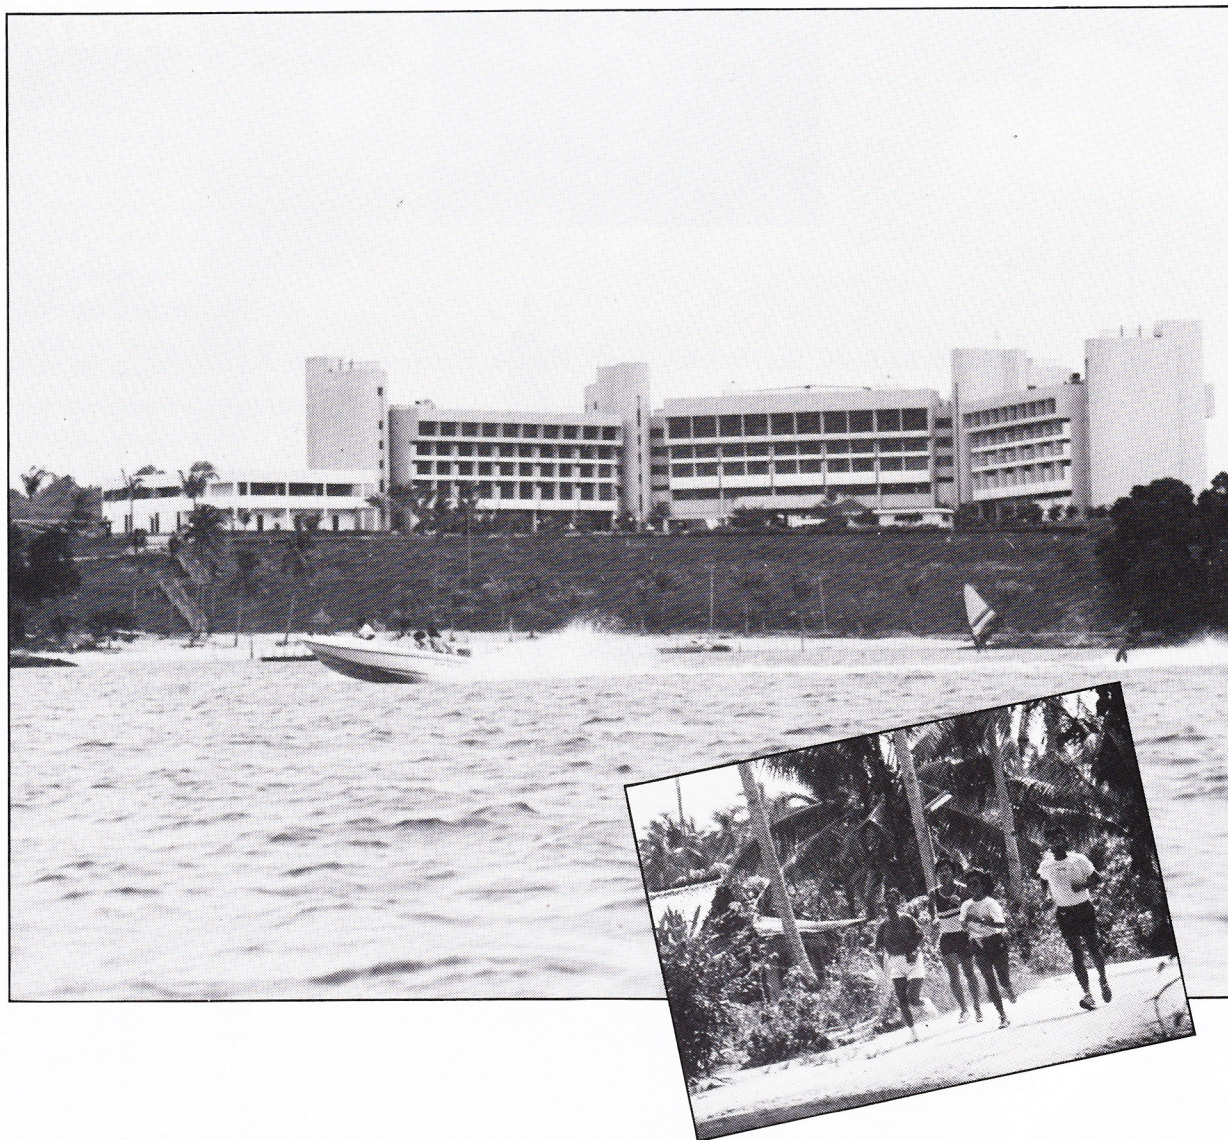

This is a completely new experience for me to try to mis-manage an event like this, fortunately I managed to surround myself with Seletar Hashmen who have organised events like this many times, and rumour has it they know what they are doing.

Enjoy the runs, get stuck into the beer and we'll see you at the On-On if you can make it. Thanks for coming and helping us to celebrate the fact that we are 400 runs old, and enjoy Seletar's own brand of hospitality.

SELETAR HASH HOUSE HARRIERS

How It All Began

The first hints of a second men's hash being formed in Singapore go back some 8/9 yrs. ago. A handful of characters who frequently visited relatives and friends in various parts of Peninsula Malaysia also took the opportunity to join the respective hash clubs in their weekly runs. As hashing was not the primary reason for such visits, it did not create an impact immediately. There were few occasions when episodes recounted by these few constituted nothing more than bar talk. Obviously this was not to be for long and as the months passed by, it soon became apparent that this activity was fast gaining popularity. It was only a matter of time before another club was to be formed on the island.

The early few were people like Martin Baptist, James Sandosham, Avtar Singh & Lim Chooi Seng, who hashed with Petaling Jaya, Sungei Ujong, Tanjong Petri & Johore Bharu Hashes. Of these, PJ & S. Ujong were of great significance and influence to us. PJ's GM Alex the 'Bear' was instrumental in helping us form our club while our constitution was based on S. Ujong's.

As far as memory serves, it was one fine day in the spring of '80 that the group of stalwarts, namely Sando, Baptist, John Chew, Ang Chuan Seng, Paul Ang & Avtar Singh met up with Alex the Bear of Petaling Jaya at Tivoli Coffee House (now closed), just to have a few beers. Though the evening's conversation never really centred on the forming of a club, it was here, quite by chance, that the Bear suggested the forming of another hash. There were mixed feelings at first, but by the time the evening ended, everyone was in general agreement. Following this historic Tivoli meeting, things began to move fast. A few days later, a second meeting was quickly convened, comprising the same six, at 74 Joo Chiat Avenue.

The evening's agenda was to discuss the name of the club and who were to form the interim committee. After some suggestions, it was decided that Seletar Hash House Harriers was to be the official name. It seemed appropriate as most of us worked in that vicinity then.

Another meeting was convened on 26 May 1980 to plan the details of the Inaugural run. This was held at Kingsford Bar (now also closed, funny, isn't it).

The inaugural run was to be held on 21 June 1980 and PJ, S. Ujong & JB Hash were to be invited as guests.

The morning of the 21st

dawned bright and beautiful. The runsite was at Marsiling School. At approximately 1.00 pm, six hares set off to lay the run. This was also to prove the largest number of hares in the history of Seletar. We were not going to take chances on our inaugural run. It had to be perfect and perfect it turned out to be. The total number of participants was approximately 40. The fun and games continued late into the night and it carried on at Tivoli till 11.30 am of the next day! Behold, Seletar was born.

SELETAR HASHMEN'S WEEK OF DAILY ACTIVITIES

MONDAY	This is MONEy-DAY and most hashmen work in order to earn money to support his family and his week of daily activities.
TUESDAY	Being 'choose-DAY' he could either ease it off or continue with Monday's trend. Most opt for the latter but knock off early for the evening's run.
WEDNESDAY	No women in the world would want to marry a Seletar hashman on the day after Tuesday. So it's WED-less-DAY.
THURSDAY	After a frustrating and fruitless day of hunting for a woman the day before, a hashman is thirsty and dying for a couple of beers. So it's a THirst-DAY.
FRIDAY	This is the day for FRIends and most hashmen could be found at Pubs all over town for 'boozing is a many splendour thing'.
SATURDAY	SATU-Rest-DAY is basically a rest day from work, but definitely not from boozing. So most hashmen would booze away their senses and cents.
SUNDAY	This is the day spent with their sons and lazing in the SUN, recuperating and tuning oneself fit for another following week of daily activities.

ON ACHIEVING 100 RUNS OR EVERY RUN IS A GOOD LUN by OPTO

Dedicated to Kevin Parnell

September 15th 1987 had no special significance for me, nor was run number 386 on the Seletar hare-line. But the laid-back Committee, as usual, mis-managed on tradition and decreed that any member making his first one hundredth run was subject to a "celebration" — meaning "ice-treatment".

So, I said to the hare, GASMAN: "I'm doing my 100th run today. Make it a good run."

GASMAN replied: "But, of course!"

Don't all hares say that? At least, he was too modest to make claims on the "run of the year", which some hares were wont to do.

"What I mean, GASMAN," I said to him clearly, "is — tell me where the possible short-cuts are. I'd like to exercise my options."

THE RUN

Armed with this knowledge, I set off, on this my 100th run with Seletar. Come to think of it, I've always had this knowledge, from the very first.

The supreme optimist, I was on my way — unlike the pack who did not know where they were going but were also on their way — the way of the hash. The mystique — which is why I run on the hash — setting forth each time on an unknown journey, not knowing until knowing becomes the experience.

From the car park at Upper Peirce Reservoir, back tracking on the road, whilst the pack hounded

off into the bushes and out again, I went further up the road with the usual bunch of SCBs who seemed to have the same instincts, whilst the pack hounded off into the bushes and out again a second time — doing the reverse of last year's "farewell to '86" run.

Along came BOO(s), on paper: "The check is further up the road, by the stream, OPTO".

He seemed to know, by native intelligence (or otherwise?) and promptly bounded off with the pack into the bushes.

SHORT CUT

All along the road I followed the SCBs (so I did not give the game away), lead by FER who "found" paper by the stream, just when the FRBs, led by AYDZS (also during his 100th run — note the difference in quality of our runs — he the mindless idiot and I the "strategic" runner) caught up with me.

And whilst the FRBs went up on a false trail by the left bank of the stream, BOO(s) again picked up paper on the right bank.

Here was my point of "no-return" — as I've run this stretch before, in reverse. So, into the jungle for an half-hour bash, with rude comments from behind, such as KOOL KLIT saying loud enough so that everyone could hear, "OPTO is holding up the pack!" These Australians surely have a sense of urgency.

DOWN DOWN

Back at the Circle, after the down-down and water-throwing

by SIBOK (WATER-TING was absent), the chorus asked: "What took OPTO so long?"

Indeed, what took me so long? Well, I'll tell yer. Last year, when I was ON SEX and Editor of THE GUZZLER, I thought I had editorial privilege when I told the joint master to pull my card. To my horror, and 50 runs later (granted I did not complete all the runs but I did make most of the first checks) I found that the number of times he had actually pulled my card could be counted on the fingers of one hand. Trust your JM!

That's the sound of one hand. To me, it matters not whether it was my 150, or 100 or 1. The fact is the run and every run is a "good lun" and that's what matters most.

A PLEASURE SHARED

What satisfied me most was that I had the pleasure that day to share my 100 with the following hashers from Seletar, of whom I am so proud: 100 AYDZ; 250-HANS SOLO; 300-Simon and JOG Shiver, wet, you water-throwing arse-holes.

"Now showing its front side
Now its back

Falls the maple leaf." (Zen master Ryokan's death poem)

QUADRIPARTITE HASH RENDEZVOUS

JOHOR BAHRU H3 + SELETAR H3 + TANJUNG PETRI H3 + LION CITY H3

SATURDAY 19TH SEPTEMBER 1987

Excitement, reminiscent of our April bash, The Pan Asia Hash '87 was in the air as one drove up the driveway and into full view of the prominently displayed, welcome banner of the Quad-

ripartite Hash Rendezvous, held recently on Mount Austin, Johor Bahru.

The idea of having a four chapters hash bash was first

conceived by Seletar H3, who then sowed the seed of QHR amongst the other three chapters, Lion City H3, Johor Bahru H3 and Tanjung Petri H3. They welcomed the move and, ger-

minated it with one sweeping unanimity. Then followed the necessary weekly consultations and check-ups and finally on the ninth week, QUADRI-PARTITE HASH RENDEZVOUS was borned and baptized on the same rainy afternoon.

Our neighbours and comrades-in-hash, Johor Bahru H3 and Tanjung Petri H3 like all delighted in-laws, threw open their arms and legs and hosted the first ever Quadripartite Hash Rendezvous at James Tay Hilton's 'Shangri-la' a retreat hidden in the thick jungles on the mountainous peak of Mount Austin in Central Johor.

The rapturous mood of 142 attending hashers preceding the run, truly endorsed the organisers' success in their prime objective of promoting closer friendship among members of four chapters from two neighbouring countries. On retrospection, the fresh toddy served that afternoon may be wholly responsible for such ec-

static mood. The usual notion that 'one should not consume intoxicating liquid before a strenuous run' was not applicable then, for as the Chinese saying goes 'you cannot force a cow to drink if it does not want to' clearly indicated that the majority gamely succumbed to such mouth-watering temptation long before the run got started. They felt, after all they were there to drink, regale and run. Well, with true blue hashers, which ever ought to be done first really make no difference.

The run started on schedule after a brief announcement by the hares and the paper trail brought everyone through condom plantations, ravines, streams, up and down hills, etc..etc... On the whole, it was a beautiful run through beautiful area on a beautiful rainy day and a field day too, for all the FRBs as each displayed their rainbow of colours. The first runner came back in an hour and twenty minutes and the last an hour later.

The On-On at 'Shangri-La' was a riotous affair. The atmosphere was electrifying and contagious as everyone imbibed with more toddys and beers were clearly in an uncontrollable frenzied mood. The beers were flowing non-stop and the singing could be heard two mountains away. The songs adulterated with Malaysian flavours were heavily spiced with C.C.B. One sweet young thing was seen blushing from cheek to cheek.

At about 9 pm, when nearly a dozen barrels of beer were consumed, we adjourned downhill to Kingto Restaurant where we had a sumptuous dinner fit for a Chinese Sultan (babi was served). There were more sing-along at the restaurant's stage and tokens were exchanged amongst the GMs of the four partaking chapters.

The On-On was at a pub called 'The Courtyard.' Some hashers nicknamed it 'The Graveyard' but with the revelling hashers there, it certainly did not resemble one. There was again much boozing, singing and dancing through the night.

When finally the cook crowed at the break of dawn, it signalled the closing of the first Quadripartite Hash Rendezvous, a splendour event, no doubt about it.

On-On to our next rendezvous in 1988.
